

# LABORATORY SAFETY

## YELLOW SAFETY FLAME

When a bunsen burner is not in use, it should be on the yellow safety flame

## DRESS APPROPRIATELY

Tie back long hair, wear eye protection, gloves or lab coat when appropriate

## REMOVE TRIP HAZARDS

Reduce the risk of trips and slips by walking carefully around the laboratory

## CLEAN-UP IMMEDIATELY

Wipe up spillages and clean up broken equipment immediately

## HANDLE GLASSWARE WITH CARE

Prevent breakages and allow to cool before handling

## SUPERVISION

Only enter the laboratory when you are given permission to do so

## NO EATING OR DRINKING

Food and drink should not be consumed within the laboratory

## ASK QUESTIONS

Speak up if you are unsure or do not feel safe
