

Log in to CENTURY

for thousands of resources at the click of a button.

The image shows a young man with a beard and short hair, smiling and holding a silver laptop. He is wearing a grey t-shirt and a black backpack. Behind him are several educational resource cards from the Century app:

- Division (using...)**: A card explaining division with a key word "Partition: To split up into parts." and examples like $12 \div 6 = 2$ and $6 \div 2 = 3$.
- Looking at both sides of the argument**: A card with a diagram of two people at podiums and text about looking at both sides of an argument.
- Which is larger?**: A card with a question "Which is larger? a) 44% of 90 b) 55% of 74" and steps to solve it.
- Calculator**: A card showing a calculation $\frac{3}{5} \times 124 = 74.4$ and a note "You may use your calculator to work this out!"
- Bonville Diet Clinic**: A card with a pie chart showing diet preferences (38%, 12%, 40%, 10%) and text about the clinic's services.
- Penne for your thoughts!**: A card with a review form for a restaurant, asking for a name, contact details, and a question "Q. What do you call a fake noodle? A. An impasta!"
