Long version (113 words)

CENTURY is a teaching, learning and assessment platform that provides Actionable Intelligence to educators. Using learning science, artificial intelligence and neuroscience, CENTURY creates constantly adapting personalised pathways for learners and powerful intervention data for teachers.

CENTURY facilitates intelligent learning through:

- **AI-powered personalisation:** Every student follows a constantly adapting pathway, with resources tailored to their individual strengths, gaps in knowledge and misconceptions.
- **Timely, targeted interventions:** Easy-to-use data dashboards give teachers clear, actionable insights to inform lesson planning, set personalised work and support each learner effectively.
- **High-quality, curriculum-aligned content:** Thousands of micro-lessons, complete with videos, slideshows and self-marking questions, support teaching, homework, revision and assessment.
