

# Teacher Guidance

To boost your organisation's chances of winning a prize in the Winter Cup 2025, here's some guidance for encouraging learners to study on CENTURY.

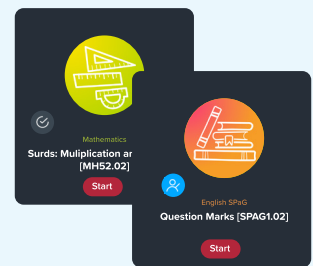

## 1. Schedule Time

Think about when learners can access CENTURY. This could be during registration, scheduled class time, independent study sessions or CENTURY after school clubs.

## 2. Using Assignments

Matching diagnostics to your scheme of work using the Assignments feature allows you to choose when students will encounter different content.

## 3. Expectations

Set expectations for learners working on CENTURY, for example complete a nugget a day.
